To

J B Mallaradhya, Esquire, M A,
Secretary to Government of Mysore,
Revenue Department, Bangalore

Sir,

Subject - Providing drinking water facilities to the residents of Harlapur in the new extension in Harihar

---

With reference to your letter No L 10135 dated 30th March 1946 on the above subject, I have the honour to state as follows :-

As the Military authorities did not consent to provide necessary drinking water facilities to the residents of Harlapur, two wells at an estimated cost of Rs 4,800/- and Rs 5,815/- were sunk and no water was tapped in the first well even though it was sunk to a depth of 72 feet and water tapped in the second well sunk to a depth of 78 feet was insufficient A reference was therefore made to the Assistant Enginee Sanitary Division to investigate if any taps could be provided for the village from the Davangere Water Works and to prepare an estimate for the same An estimate was received from him for Rs 4,500/- making - privision for 2 public taps by extending the 4" line from the R C C ta over a distance of 2,000 R Ft The estimate was sent to the Municipal Council for providing the necessary funds The Municipal Council, - Harihar at its meeting held on 5-9-1946 resolved that in view of the fact that Harlapur was proposed to be separated from the Municipal - limits and included in the Industrial Suburb, this expenditure could not be met

A draft Notification for altering the boundaries of Harihar Town Municipality has been sent to Government in this office letter No A6 C 1714/44-45 dated 23-6-1946 and orders of Government are awaited The question of the formation of the Industrial Town Board is not yet decided The residents of Harlapur cannot afford to wait as they ar at present experiencing great difficulty for drinking water

In these circumstances, I request that the sanction of Gov rnment may kindly be obtained to grant a sum of Rs 4,500/- out of the Water Supply grant ~~during~~ the current year towards the execution of this work as a special case
